## Year 3 Maths Assessment I Can Statements

Name:

## Date:

## Number

## Number and Place Value

| I can count from 0 in multiples of $4,8,50$ and 100; find 10 or 100 more or less <br> than a given number. |  |
| :--- | :--- |
| I can recognise the place value of each digit in a three-digit number (hundreds, tens, <br> ones). |  |
| I can compare and order numbers up to 1000. |  |
| I can identify, represent and estimate numbers using different representations. |  |
| I can read and write numbers up to 1000 in numerals and in words. |  |
| I can solve number problems and practical problems involving these ideas. |  |

## Number

## Addition and Subtraction

| I can add and subtract numbers mentally, including: |  |
| :--- | :--- |
| a three digit number and ones; |  |
| a three-digit number and tens; |  |
| a three digit number and hundreds. |  |
| I can add and subtract numbers with up to three digits, using formal written <br> methods of columnar addition and subtraction |  |
| I can estimate the answer to a calculation and use inverse operations to check <br> answers. |  |
| I can solve problems, including missing number facts, place value, and more <br> complex addition and subtraction. |  |

## Number

## Multiplication and Division

| I can recall and use multiplication and division facts for the 3,4 and 8 <br> multiplication tables. |  |
| :--- | :--- |
| I can write and calculate mathematical statements for multiplication and division <br> using the multiplication tables that they know, including for two-digit numbers <br> times one-digit numbers, using mental and progressing to formal written methods. |  |
| I can solve problems, including missing number problems, involving multiplication <br> and division, including positive integer scaling problems and correspondence <br> problems in which $n$ objects are connected to $m$ objects. |  |

## Number

## Fractions

| I can count up and down in tenths, recognise that tenths arise from dividing an <br> object into 10 equal parts and in dividing one-digit numbers or quantities by 10. |  |
| :--- | :--- |
| I can recognise, find and write fractions of a discrete set of objects: unit fractions <br> and non-unit fractions with small denominators. |  |
| I can recognise and use fractions as numbers: unit fractions and non-unit fractions <br> with small denominators. |  |
| I can recognise and show, using diagrams, equivalent fractions with small <br> denominators. |  |
| I can add and subtract fractions with the same denominator within one whole [for <br> example, $5 / 7+1 / 7=6 / 7]$. |  |
| I can compare and order unit fractions, and fractions with the same denominators. |  |
| I can solve problems that involve all of the above. |  |

## Measurement

\(\left.$$
\begin{array}{|l|l|}\hline \begin{array}{l}\text { I can measure, compare, add and subtract: lengths (m/cm/mm); mass }(\mathrm{kg} / \mathrm{g}) ; \\
\text { volume/capacity (l/ml). }\end{array} & \\
\hline \text { I can measure the perimeter of simple 2-D shapes. }\end{array}
$$ $$
\begin{array}{l}\text { I can add and subtract amounts of money to give change, using both } £ \text { and } \mathrm{p} \text { in } \\
\text { practical contexts. }\end{array}
$$ \quad \begin{array}{l}I can tell and write the time from an analogue clock, including using Roman <br>

numerals from I to XII, and 12-hour and 24-hour clocks.\end{array}\right]\)| I can estimate and read time with increasing accuracy to the nearest minute; <br> record and compare time in terms of seconds, minutes and hours; use vocabulary <br> such as o'clock, a.m./p.m., morning, afternoon, noon and midnight. |
| :--- |
| I can know the number of seconds in a minute and the number of days in each <br> month, year and leap year. |
| I can compare durations of events [for example to calculate the time taken by <br> particular events or tasks]. |

## Geometry

## Properties of Shapes

| I can draw 2-D shapes and make 3-D shapes using modelling materials; recognise <br> 3-D shapes in different orientations and describe them. |  |
| :--- | :--- |
| I can recognise angles as a property of shape or a description of a turn. |  |
| I can identify right angles, recognise that two right angles make a half-turn, three <br> make three quarters of a turn and four a complete turn; identify whether angles <br> are greater than or less than a right angle. |  |
| I can identify horizontal and vertical lines and pairs of perpendicular and parallel <br> lines. |  |

## Statistics

| I can interpret and present data using bar charts, pictograms and tables. |  |
| :--- | :--- |
| I can solve one-step and two-step questions [for example, 'How many more?' <br> and 'How many fewer?'] using information presented in scaled bar charts and <br> pictograms and tables. |  |
